EXPERIENCE

Full Stack Developer
HubSpot

Remote
2020 - 2023

HubSpot is a leading inbound marketing and sales software company headquartered in Cambridge, Massachusetts, USA. Founded in 2006 by Brian Halligan and Dharmesh Shah.

- Engineered a membership platform from scratch using MERN; increased retention rate by 5% and saved the company 10 hours of manual work per week
- Researched and created a new application to be used by the company, resulting in a 1.24x increase in sales
- Generated $50K+ in annual ad revenue as a system administrator of a large network of websites.
- Developed a node.js server to validate membership and track digital badges being used, saving the company $22.5K.
- Mentored 4 team members, enabling them to achieve professional growth and personal goals
- Developed the process of testing and recording the results of the test, thereby increasing the number of tests completed per day by 10%
- Developed a new technique for reducing the time it takes to fix crashes by 20%

Full Stack Developer
Mezzanine

Los Angeles, California
2017 - 2020

Mezzanine is a California-based company that specializes in providing innovative solutions for businesses. They offer a wide range of services, including software development, web design, digital marketing, and IT consulting.

- Fostered a culture of collaboration within the team by implementing agile methodologies, leading to a 10% increase in project efficiency and a 5% reduction in time-to-market
- Designing a new web application to enhance collaboration between design, engineering and sales teams increased revenue by 10% in one quarter.
- Built a custom web application for a major client, successfully delivering an integrated CRM system in just 2 weeks
- Conceptualized, designed, and produced 50+ digital and print marketing materials using Adobe InDesign and Illustrator; increased website traffic by 15%, and sales by 5% in 6 months

Junior Web Developer
Fareportal

New York, New York
2014 - 2017

Fareportal is a leading travel technology company that operates a number of websites which serve customers both online and with telephone.

- Designed and implemented a new cloud-based mobile POS platform, resulting in a 2.5% increase in customer retention
- Coordinated cross-functional teams of hardware and software developers to ensure seamless integration of the new POS system; achieved 10% reduction in transaction processing time
- Continued to develop specialty skills related to his expertise in mobile POS and payment technologies
- Developed and continuously improved an internal knowledge base of best practices for software development
